JAHZEEL ISSAC RODAS FLORES

Ingeniero Informático — Software Developer

La Paz, Bolivia · +591 70226107 · jahzeelrodas@gmail.com · www.rovelbots.com

PROFILE

Computer Engineer with over 7 years of experience developing backend systems using Node.js and Java Spring Boot for public institutions and international events. Specialized in institutional portals and process automation (QR accreditation, credentials, certificates), with more than 25 systems maintained in production nationwide. I complement my professional practice by teaching educational robotics (Arduino, NodeBots) and STEM methodology, a role I have held since 2016.

EXPERIENCE

Systems Developer — CAAm / UINL · Santa Cruz (2025–2026)

Institutional portal and registration system for a 5-day international event (115th CAAm Plenary Session + International Congress of Notaries, May 12–16).

- QR-based entry check-in and attendee badge generation.
- Automated issuance of certificates of participation (eliminating manual distribution).
- Stack: Node.js, Express, PostgreSQL.

Systems Developer — National Association of Notaries of Bolivia (2025–2026)

- Institutional web portal and digital solutions for the association at the national level.

Systems R&D Professional — National Customs (Aduana Nacional), La Paz (2022–2025)

- Analysis, development, and maintenance of over 25 systems in national production: TCF, RSI, VUCE, SAE, institutional web portals (legacy and new), among others.
- Full lifecycle: analysis, design, development, testing, debugging, implementation, and maintenance.
- Stack: Java Spring Boot, Node.js, PostgreSQL, Git, Docker.
- Previous roles in 2022: Systems R&D Technician and Systems Operations Professional (La Paz Inland Customs); promoted to Professional within the same year.

Founder / STEM Educator — Rovelbots · PROVEMIL (2016–Present)

- Line-following robot courses using Arduino and NodeBots for teachers and students (e.g., Caraparí, 3-day workshop).
- Speaker on STEM methodology and technological innovation (INCOS Tarija 2019; Arduino Day 2019).
- International speaker representing Bolivia: 1st Electronics and Robotics Congress, Salta 2018 (AI with open-source hardware). - Member of the judging panel for the 6th Student Science Olympiad (robotics, 2016) and a 30-hour training program in electronics and Arduino for teachers..

SKILLS

Backend: Node.js, Express, NestJS, Java, Spring Boot, Python Frontend/Mobile: Angular, Flutter, JavaScript, Tailwind CSS, HTML5

Data and DevOps: PostgreSQL, MySQL, Docker, Git/GitHub, Postman · Testing and Agile: JUnit, Selenium, Playwright, K6, ISTQB, Scrum

EDUCATION

Bachelor's Degree in Computer Engineering — Autonomous University Juan Misael Saracho, Tarija (2016). National Professional License: Computer Engineer. Thesis: Property management and monitoring using web technology and Arduino.

SELECTED TRAINING

Java and Spring Backend (Platzi, Udemy, Iquattro) · Testing: ISTQB, JUnit, Selenium, Playwright · Angular and NestJS Frontend · Git/GitHub, PostgreSQL, SQL · SAFCO Law 1178 and public official liability (Supreme Decree 23318-A).

RECOGNITIONS (SELECTED)

Track Automation, HG Competición Tarija 2022 · NodeBots Tutorial, Arduino Day 2019 · AI with Open Hardware Lecture, Salta 2018.
